

Multiple Stressors Conference – and Training Courses

*– Novel Methods
for Integrated
Risk Assessment*

**Early Bird Registration
Ends 27 August 2009 !**

Online registration for the Aarhus Conference
is open at
<http://www.kongreskompagniet.dk/multiplestressors>

Main Themes:

- Assessment of chemical mixtures and combinations of chemicals and natural stressors
- Integration of environmental and human risk assessment
- Understanding the cognitive and knowledge-related, social and contextual aspects of integrated risk assessment
- Understanding complex exposure scenarios

More information at <http://nomiracle.jrc.ec.europa.eu>

In connection with the Aarhus Conference, NoMiracle offers 4 courses demonstrating methods and tools for risk assessment of cumulative stressors developed during the NoMiracle project.

- Course 1:** Ecological risk assessment:
the concepts of sensitivity and vulnerability
- Course 2:** Mixture toxicity within a DEB context– Experimental design and Data analysis
- Course 3:** Separation of uncertainty and variability in risk assessment
- Course 4:** Uncertainty bottlenecks in risk assessment

The courses will be held at the Ferskvandscentret in Silkeborg, Denmark
Sunday 27 September 2009. More information can be found here:
<http://nomiracle.jrc.ec.europa.eu>

The conference is organised by the FP6 Project NoMiracle
<http://nomiracle.jrc.ec.europa.eu>
in alliance with the FP6 project PHIME
